PROFESSIONAL SUMMARY

Cloud & DevOps professional with a Computer Science Engineering background and hands-on experience in AWS, Linux system administration, Docker, CI/CD and Terraform. Projects include Ethereum node infrastructure, Magento hosting, Dockerized applications and AWS infrastructure provisioning. Brings 4+ years of overall professional IT experience, with strengths in troubleshooting, systems administration, production support and client communication. Currently completing a short-term warehouse contract.

TECHNICAL SKILLS

AWS Cloud	EC2, VPC, IAM, S3, Security Groups, Internet Gateway, CloudWatch (basic), resource provisioning
Linux Administration	Debian/Ubuntu, systemd, process management, cron, storage/memory monitoring, journalctl, /var/log, SSH/SCP, permissions
Containers & Monitoring	Docker, Docker Compose, container lifecycle, volumes, networking; Kubernetes, Prometheus and Grafana fundamentals
CI/CD & IaC	Git, GitHub, GitHub Actions, GitHub Secrets, YAML workflows, Terraform (basic provisioning)
Networking & Security	Nginx, reverse proxy, virtual hosting, Let's Encrypt/Certbot, DNS, Cloudflare, Ethereum RPC, HTTP/HTTPS, TCP/IP, firewall basics
Web Stack	Magento 2, Varnish Cache, Redis, Elasticsearch, PHP-FPM, phpMyAdmin, MySQL 8

PROJECTS

Ethereum Node Infrastructure — Production-Oriented RPC Deployment | Confidential Client

- Provisioned an Ubuntu-based Latitude.sh bare-metal server and deployed Geth (execution) and Lighthouse (consensus) clients for Ethereum Mainnet.
- Managed services with Docker Compose; configured Nginx reverse proxy and secured RPC endpoints with Let's Encrypt SSL (Certbot).
- Troubleshot synchronization, server health and Google Safe Browsing issues affecting production accessibility.

Magento Production Stack Deployment — AWS + Linux

- Deployed Magento on AWS EC2 (Debian 12); configured Nginx reverse proxy, PHP-FPM and MySQL 8.
- Integrated Redis for sessions, Varnish for full-page caching and Elasticsearch for product search; managed HTTPS, virtual hosting, monitoring and troubleshooting.

CI/CD Pipeline Automation — GitHub Actions

- Created a YAML-based workflow to trigger deployment on code push; automated SSH deployment to AWS EC2 and secured credentials with GitHub Secrets.

Infrastructure as Code — Terraform on AWS

- Provisioned EC2, VPC, subnets, security groups and IAM roles using Terraform; practiced reusable infrastructure modules.

PROFESSIONAL EXPERIENCE

Warehouse Associate (2-month contract) | 5 Sep 2026 – 31 Oct 2026

Avsar HR SPNN Business Services Pvt Ltd — deployed at Amazon CJB1

- Perform stowing operations in a fast-paced fulfillment environment, following safety, quality and standard operating procedures.
- Coordinate with team members and supervisors to complete tasks accurately and on time.

Career Transition / Hands-on Projects — DevOps & Cloud Engineering | Mar 2026 – Present

- Build and deploy Linux/AWS environments, Magento stack, Dockerized applications, CI/CD pipelines and Terraform-provisioned infrastructure.
- Manage Nginx reverse proxy, SSL, Cloudflare and Ethereum node infrastructure; publish projects on GitHub.

DevOps & Cloud Engineering Intern | 25 May 2026 – 5 Jul 2026

WeAlwin Technologies

- Practiced AWS IAM, S3 and VPC fundamentals; managed GitLab users, roles and permissions.
- Configured Cloudflare DNS (A/CNAME) and gained exposure to WAF, bot protection, IP blocking and live project architecture.

Senior Business Development Executive | Dec 2024 – Mar 2026
Plurance Technologies Pvt Ltd
- Managed B2B software/IT-services relationships; mentored 4+ junior team members and coordinated client communication, documentation and delivery teams.

Senior Business Development Executive | Jul 2023 – May 2024
Clarisco Solutions
- Managed B2B client relationships, gathered requirements, prepared proposals and coordinated project communication/documentation.

Business Development Executive | Mar 2022 – Jul 2023
WeAlwin Technologies
- Generated software-services opportunities, conducted client/requirement discussions, prepared quotations and coordinated project execution.

EDUCATION

M.B.A. — Business Administration | Jun 2022 – Nov 2024
Madurai Kamaraj University

B.E. — Computer Science & Engineering | Aug 2016 – Dec 2020
Sethu Institute of Technology

CERTIFICATIONS & AVAILABILITY

AWS Cloud Practitioner Essentials • Linux System Administration

Available for immediate joining | Open to relocation, remote or hybrid roles | Available for 24x7 shift-based roles
