DevOps Engineer ◇ AWS ◇ Docker ◇ CI/CD ◇ Linux

Madurai, Tamil Nadu, India

OBJECTIVE

Aspiring DevOps Engineer with hands-on experience building end-to-end CI/CD pipelines using GitHub Actions, Docker, and AWS EC2. Strong foundation in Linux administration, containerization, Git workflows, and cloud deployment. Brings 4 years of professional experience in client-facing roles with proven problem-solving, communication, and cross-functional collaboration skills. Actively transitioning into DevOps and Cloud Engineering; available for immediate joining.

TECHNICAL SKILLS

Cloud, Orchestration, Version Control	AWS EC2, S3, VPC (Basics), Cloudflare DNS, SSL/HTTPS (Certbot), Kubernetes
Containerization, IAC	Git, GitHub – branching, merge, rebase, pull request workflows
CI/CD	Docker, Docker Compose, Terraform
OS Admin	GitHub Actions – automated build, test, and deployment pipelines
Web Server	Linux (Ubuntu) – process management, cron jobs, disk troubleshooting, service monitoring
Scripting	Nginx – configuration, HTTPS setup
Networking	Bash Shell Scripting – system monitoring, automated alerts, service checks
	DNS, HTTP/HTTPS, Ports, Load Balancers (Basics)

PROJECTS

Cloud Infrastructure and Automation Engineering (Transition Projects):

[\(Explore it here\)](#)

- Infrastructure as Code (IaC): Engineered and deployed scalable, production-standard Multi-AZ VPC network infrastructure on AWS using Terraform to ensure strict high-availability architectures.
- Managed Kubernetes (EKS): Provisioned and managed AWS EKS clusters, including the configuration of control planes, secure IAM policies, and optimized EC2 managed worker node groups.
- Configuration Management (YAML): Proficiently designed and written structured YAML configurations and Kubernetes manifests for automated workload deployment and service orchestration.

End-to-End CI/CD Pipeline with AWS Deployment: (GitHub Actions, Docker, AWS EC2, Linux)

[\(Explore it here\)](#)

- Built a complete CI/CD pipeline using GitHub Actions automating build, test, and deployment stages.
- Automated Docker image build and push to Docker Hub using GitHub Secrets for secure authentication.
- Deployed application on AWS EC2 using SSH automation; configured pipeline to stop old containers and run updated containers automatically.
- Debugged real-world issues including CI failures, Docker errors, and network connectivity problems, achieving zero-downtime deployments.

Portfolio Deployment on AWS EC2 with Custom Domain: (AWS EC2, Nginx, Cloudflare DNS, Certbot)

[\(Explore it here\)](#)

- Deployed personal portfolio on AWS EC2 instance; configured Nginx as web server.
- Integrated custom domain using Cloudflare DNS and secured application with HTTPS using Certbot (Let's Encrypt).
- Automated server setup and deployment using SSH scripts.

ADDITIONAL PROJECTS

Practice Projects: (Linux, Bash, Cron, Docker, Git) ([Explore it here](#))

- Built Bash automation scripts for system monitoring, alerts, and service health checks.
- Configured cron jobs for scheduled tasks and automated maintenance operations.
- Practised Docker networking and container-to-container communication.
- Implemented Git workflows including branching strategies, merge, and rebase.

CERTIFICATES

- DevOps Boot-camp ([Look at it here](#))
- DevOps Workshop ([Look at it here](#))
- DevOps Mindset ([Look at it here](#))
- Python 101 - Basic ([Look at it here](#))

EXPERIENCE

Senior Business Development Executive

Dec 2024 - Feb 2026

Plurance Technologies Pvt Ltd

Madurai

- Spearheaded client acquisition and partnership strategies, achieving a 10% YoY revenue increase in blockchain-based SaaS solutions.
- Worked closely with technical teams to understand product architecture and deployment workflows.
- Coordinated with cross-functional teams to deliver client solutions.
- Managed client interactions and requirement understanding.
- Developed strong problem-solving and communication skills in a fast-paced environment.

Senior Business Development Executive

Jul 2023 - May 2024

Clarisco Solutions

Madurai

- Executed competitive market research to identify blockchain service opportunities, increasing conversion rate by 18%.
- Collaborated with cross-functional teams to analyze client requirements and develop tailored business solutions.
- Created detailed reports and presented them to the organization, resulting in improved decision making.

Business Development Executive

Mar 2022 - Jul 2023

WeAlwin Technologies

Madurai

- Built long-term client relationships through consultative selling and post-implementation engagement.
- Led B2B sales efforts across IT and blockchain projects, driving a 15% revenue increase within the first year.
- Analyzed client feedback data, enhancing customer satisfaction scores by 20%.
- Streamlined proposal and quotation processes, reducing response time by 25%.

EDUCATION

Master of Business Administration, Madurai Kamaraj University

2022 - 2024

Bachelor of Computer Science and Engineering, Sethu Institute Of Technology

2016 - 2020

AWARDS

- Best Outstanding Performer [Award](#) exceeded quarterly revenue goals by 120% and drove consistent client growth.

- The Deal Maker [Award](#) recognized for exceptional client conversions and strategic sales leadership in blockchain solutions.

RECOMMENDATIONS
